Question Two: (30 points)

Read the following text carefully, and then in your ANSWER BOOKLET answer all the questions that follow. Your answers should be based on the text.

Megaprojects are extremely large investment projects, which are designed to encourage economic growth and bring new benefits to cities. Although megaprojects vary in terms of size and cost, they are all, by definition, expensive, public projects that attract a high level of interest and media coverage. Projects range from motorways, airports, stations, tunnels, bridges to entire city complexes.

Masdar City, which began its development in 2006 CE, will be the world's first carbon-neutral, zero-waste artificially-created city. Covering an area of six square kilometres. When it is completed in 2025 CE, it is expected to house more than 40,000 residents, 50,000 commuters, and 1,500 businesses involved in mainly environmentally-friendly products.

The city is built on an advanced energy grid which monitors exactly how much electricity is being used by every outlet in the complex. Furthermore, in order to reduce its carbon footprint, Masdar City will be a car-free zone, designed to be pedestrian and cycle-friendly. Electric, driverless cars will operate as public transport vehicles, and the city will be connected to other locations by a network of roads and railways. While the project has the support of many global, environmental and conservation organisations, there is some criticism of it.

In conclusion, the benefits of Masdar City for the community and the environment greatly outweigh any disadvantages. If the aims of the developers are realised, Masdar City will be a blueprint for future urban planning that will inspire similar megaprojects in other countries.

1. Certain procedures will be carried out to minimise the effect of carbon footprint in Masdar city. Write down three of these procedures. (9 points)
2. Three different groups of people are expected to be the inhabitants of Masdar city when it is completed in 2025. Write down these three groups. (6 points)

4. Find a word in the text that means "to be more important than something else". (4 points)

It is said that the best way to acquire a language is to immerse yourself in it, and that's what we offer at *Extreme English*: total immersion.

After joining the course, you will stay in one of our beautiful apartments. You'll hear and speak English all day long. You can either join a small group of other students of a similar level, or request a 'tailor-made' course. For example, you may require a course in academic English to prepare you for undergraduate or postgraduate studies, or a vocational course to help you with your career. Either way, you will live and work together as a family.

In the mornings, after breakfast, one or more of our trained and experienced teachers will arrive, and you will have three hours of intensive tuition. Then, after enjoying lunch together around the table, you'll visit local places of interest, go shopping, take part in sports, etc. Whatever you do, your teachers will be with you, acting as guides, tutors and friends.

Some people just come for a week, and they are usually amazed by how much progress they make in such a short time. Others come for two, three, or even four weeks. It's up to you. You can be sure of one thing – we'll do our very best to give you a first – class experience and send you home thinking and dreaming in English!
